

bawk. A rah tam vanglai chuan berry te hi nitin anihloh pawhin ni kar danah lawh zel tur a ni. A tlangpuiin Sweet Charlie strawberry variety hi chuan kung khat zelah 200-500g te a thar thei a ni. Zing kara a rah lawh hian a dahthat hun chhung a rei thei ber bawk.

Rannung leh a natna tlangpuite:

Rannung:

Red Spider mite: A pui leh a naute te hian a tuihnang an dawtin an hip pui thin a, tichuan a than a thu in a rah a tlem phah thin.	Aldicarb (10g) @ 5 kg/ha, Chloropyriphos and Carbamates te hian a tihrem theih.
Hairy caterpillar: A hnah a ei thin.	Nuvan 0.05 % or Malathion 0.05% a kah tur.
White grub and cut worm: A zung leh a hnah nem a ei thin.	Chlorpyriphos 0.1% in kah tur.
Thrips: A pui leh a naute te hian a tuihnang an dawtin an hip pui thin.	Delamethrin and Cypermethrin a kah a tha
Leaf roller: A hnah a khawr thin.	Nuvan or Chlorpyriphos in August – September a kah tur, tin, Dichlorvos in November-February ah kah leh bawk tur.

A rah seng tawh hnu chuan damdawi hi hman loh hram tur, kan hmang a nih paawhin ni 15 hma chuan a rah lawh loh tur.

A natna :

Powdery Mildew: A vutbuak natna a ni a, a hnah a chunglamah a in zial chho tlangpui.	Karathane (0.05%) in ni 15 danah May – Setember thla chhungin kah tur.
Verticillium Wilt: A natna tlanglawn tak a ni a, a hnah a lo engin a lo vuai a, a thi mai thin.	A hmun ngai a chin reng loh tur. Formalin (5000L/ha) or Chloropicrin (210L/ha) in a lei chiah tur.
Leaf Spot: A hnah a de thek thek thin.	Bordeaux mixture (copper sulphate 800g + Lime 800g + 100 L of water) in vwi 2-3 ni 10 – 15 danah kah tur.

STRAWBERRY PHUN DAN LEH A ENKAWL DAN

Publish under
**National Initiative of Climate Resilient
Agriculture (TDC)**
2016-2017

Name of Crop	Strawberry
Variety	Sweet Charlie
Duration of Crops	5 months
Yield	280 gms/plant
Av. No. of Fruit/ Plant	18
Av. Weight of Fruit	15.8 gms
Av. No. of runners	35/plant

A leilung:

Strawberry hi eng lei ah pawh a chin theih a, mahse lei me lam deuh dur tha si leh in thli hul tha ah a tha deuh ber. Tlakleiah aiin lei me lam deuhah a thar hma zawk. Tui tlin theihna hmunah chin loh tur a ni.

A tlangpuiin a zungte hi 15cms aia thukloah a kaih thin avangin he mi chin hi chu a lei a tha in tui a thlihul tha tur a ni. Lei thur lutuk loah a tha duh a, tlema a thur deuh chuan zung a kaih tha duhlo hle.

Sik leh sa:

Strawberry hi sik leh sa hian a thunun thui hle a, khawlum leh vawt thua leh ni sat dan azir leh ni rei zawng ten nasa takin a thunun a. Achhun lumzawng 22°C – 25°C leh zan lam temperature 7°C – 13°C ah atha duh hle. Ni rei leh sa tha hian a than a titha in a rah pawh a tilian a, a thlum duh em em a ni.

A chinna tur buatsaih dan:

A china tur a leilung buatsaih hi a pawimawh em em a, September thla velah uluk taka a chinna hmun tur chu leh phut a nisa hem tir tur a ni.

Chumi hnuah cheh dip vek a, hnim leh hnawmhnawk dangte paihfai tur. Thuk taka lei cheh phut hian leiin tuia pai hnem theih nan a tan a tanpui a ni.

Tui a mamawh hnem avangin lei tihnewngtu atan polyfilm emaw hnimhnah/buhpawla chhin hi a tha hle a ni.

A phun hun:

Kum tluanin a phun theih nain a phun hun tha ber chu September- October hi a ni a. Phun hma hi duhthusam a ni a, hma lutuk erawh a kung a insiam tha duh lo. Kan strawberry phun tur chu a hrisel tha tur a ni.

A phun dan:

Kan phunna tur lei chu feet 2 vela hlai, 15cms vela sang leh a remchan dan anga seiin rih pawn tur a ni. A theih chuan plastic polythin dum in khuh emaw buhpawl a khuh hnuah feet 1 leh feet 1 leh achavne inkar danah phun tur a ni. Kan phun thuk lutuk tur a ni lo a, a pawnlung lutuk tur ani lo, a bulbawk a kha leiah a phum chiah tur a ni

Pot a Strawberry chin dan:

Pot/Polypot a strawberry chin hi a thianghlim in mi a hip hle a, kumtluanin a thar theih bawk ani. A hmun ngai a chin reng hi rannung leh natna lakah a himlo a, plastic bag ah pawh kum hnih khat vel chhung chu tha takin a thar theih a ni. Polypot a chin hi a remchang hle a, duhna hmunah dah a awlsamin, ni satna leh a that duhna lai hmuna hunsawn maitheih a ni a, tin, natna leh rannung paawh a tlem bik a sawi a ni. Pot chu a hnuai berah lungnawi tui hiphul thei tur dah hmasak tur a ni a, chumi hnuah lei, Balu leh Bawngkek leitha 1:1:2 proportion a chawhpawlh in hnawhkhah tur ani.

Tuipek Dan:

A zung a pawnlung em avangin khawkheng an tuar theilo hle a, chuvangin tuipek theihngilh loh tur a ni, a chinna hmun chu a

hnawng tawk chauh tur a ni a, rah a chhuah tak tak hnuah phei chuan tui a mamawh hnem leh zual a ni. A tuidul lutuk erawh chuan a rah phu loin a hnah leh a kung a that duh bakah Botrytis rot a awm duh bik ani.

Leitha Pek Dan:

Bawngkek leitha 70 – 80 tons/ ha vel pek hi duhthusam a ni a, hei hian lei a tih that bakah tui a pawm reiin a tuidul lutuk tur a thlihulin a zung tha tak a kaihtir a ni. Hemi bakah Nitrogen 75 – 100 kg/ha , Phosphorus 80 – 120 kg/ha leh Potash 50 - 80 kg/ha vel a leithat dan azirin dah theih ni se a tha hle ang. Lei sawngbawl lain Phosphate full dose leh Potash dose chanve lehnnan nghal tur a ni. Nitrogen erawh hi chu hmun 2 a thenin then 1 na chu phun atanga kar 3 naah pek tur a ni a, a dawt leh chu a par hunah pek leh tur a ni. Potash dose chanve pawh a par hunah pek leh bawk tur ani ang.

Mulching:

Mulching(khuhhnawn) hian khawvawt lutuk tur lakah a veng a, hnim to tur a dan bakah lei kal ral tur leh tui hu chhuak nasa lutuk tur a veng a ni a, a khuh nana an hman tlangpui chu buhpawl, thingzai nawi, hnahro leh polythin te a ni.

A seng:

Strawberry hi uluk tak a lawh leh seng tur ani a, a rah te chu a khawng thain a rawng a sen mawi hle tur a ni a, a rah tawih leh ei tlak loh te pawh lawha hla takah paih thin tur a ni. A hun taka seng a uluk taka dahthat anih chuan strawberry hi reitak chhung a tha thei a ni. A rawng sen 50-75% vel a insiam hunah a rah hi lawh tur a ni. Bazara hralh tur a nih chuan a rah rawng a sen rual thap hunah lawh a tha. A rah lang tharlam rei deuh tura kan duh chuan a kuang lam 12mm vel chinah lawh a tha
